PRAIANO

collection

Praiano is one of Italy's charming coastal gems, nestled in a strikingly rocky hillside. Inspired by these cliffs, the bases of our tables have been lovingly sculpted from a block of marble that mirrors the organic forms found in Praiano. To contrast with these distinctly jagged bases, the tops offer a powerfully monolithic presence. This meeting of brutalism with

purism creates beautifully dramatic shadows as the pieces catch the light, imbuing them with a strong and contemporary character. The Praiano Collection brings together works that display craftsmanship and creativity at the highest level, and as such, it is an indelible part of the world of collectible design.

PRAIANO

dining table

The Praiano dining table in Verde Cipollino marble draws inspiration from the idyllic coastal town of Praiano on the Amalfi Coast. The table's exceptional design embodies the fusion of art and nature as the marble glows with its famed chromatic shades and sumptuous swirls. The strikingly sleek stone's unique characteristics wonderfully reflect the serenity of the sweeping curves of the Amalfi Coast, famous for its stunning coves and cliffs.

Every last detail of its base has been expertly hand-carved by esteemed artisans, evoking the sinuous silhouette of the coast. The result is a perfect harmony between functionality and form, elevating the dining table into a work of art.

Based on a system of pillars and pilasters joined by horizontal bases, and made entirely from Verde Cipollino marble, this bookshelf delights with an elegantly architectural structure. The sumptuously smooth marble is rendered in impeccable detail, with each element hand-carved by master craftsmen. The result is a three-dimensional work of art that perfectly merges functionality and design.

What makes this bookshelf so remarkable and collectible is the beguiling Verde Cipollino marble from which it was carved. Those varied veins and deeply luscious tones underscore the piece's individual personality, with every detail lovingly attended to by Italian artisans. The unparalleled expertise provides not only an exceptional design experience but a truly unique collectible piece.

POSITANO
collection

POSITANO

collection

Positano is another one of Italy's iconic cliffside villages, tucked away in an enclave by the shore. Inspired by this small slice of rocky paradise, these extraordinary works of art utilise the red marble's dreamy patterns to reflect the irregular shapes and natural edges of Positano's coastline. Just as these works embrace the idiosyncrasy of nature, with their rustic red hues,

they also strike a distinctly modern chord with their sleek artistry that is evident from every angle. Handmade with precision and care using a beautiful block of Italian marble, each piece is a loving tribute to this paradisiacal coastal town, while at the same time inspiring awe in the world of contemporary collectible design.

POSITANO

coffee table

Named after the picturesque cliffside village that inspired it, this striking coffee table wonderfully captures Positano's dreamy atmosphere. The rapturous red marble with its muted tones conjures up the breathtaking landscapes, while the charmingly jagged base and stepped top recalls the encounter between the sea and the town center, between the smooth surface and the bush-hammered finish.

Entirely hand-carved from a block of marble, this coffee table has a unique story to tell. The chalky red marble is rich in visual nuances, its natural irregularities further highlighted and celebrated in the artisanal craftsmanship. As such, this coffee table is an undeniably authentic piece of handmade creation, as well as a timeless beauty to savour.

POSITANO

console

The Positano console perfectly embodies the picturesque cliffs of Positano, with its rugged elegance and peaceful presence. Inspired by this village on the Amalfi coast, the console is a wholly unique design piece that exudes sophistication and craftsmanship. Where it combines rough textures and jagged lines with smooth finishes, it recalls the iconic architecture of Villa Malaparte

as seen in Jean-Luc Godard's 1963 film *Le Mepris*. That same blissfully rustic atmosphere is felt in the Positano console, its bush-hammered finish underlying a rugged beauty.
